Plotify Bulk Property Submission - Rules & Format

To use the Seller Bulk List feature, your CSV file MUST follow these strict rules:

1. Exact Column Headers Required:

Your CSV file must have exactly these column headers in the first row:

Title, Price, Category, Location, Description, Bedrooms, Bathrooms, Area, Type, Floor, TotalFloors, Furnishing, Facing, Amenities, MapLink, ImagePath, OwnershipProof

2. Allowed Values for Specific Columns:

To avoid robot errors, you must use exact matches for dropdown fields:

- Category: Sell, Rent, Commercial

- Type: House, Apartment, Villa, Commercial, Farm House, Beach House

- Furnishing: Unfurnished, Semi Furnished, Fully Furnished (Do NOT use hyphens)

- Facing: North, South, East, West

3. Amenities Formatting:

- Amenities must be a single string separated by commas (e.g. "Lift, Parking, Security").
- If using Excel, ensure the cell is quoted if it contains commas.
- Only these exact amenities are supported: Lift, Parking, Power Backup, Security, Water Supply, Play Area.

4. File Upload Columns:

- ImagePath and OwnershipProof must be EXACT absolute file paths on your computer.
- Example: C:\Users\Name\Documents\house.png

5. General Rules:

- Do not include extra spaces at the beginning or end of values.
- Numeric fields (Price, Bedrooms, Bathrooms, Area, Floor, TotalFloors) must be numbers.
